

# Trigger·Flex<sup>®</sup>

Exclusive Treatment for Endoscopic Spine Surgery

- Compatible with all Spine Scopes
- Regain Visualization After Red Out
- Annulus Modulation
- Navigational Access
- Nucleus Ablation
- Tactile Feedback

## Product Specifications and Technology Overview

## Our Technology... See The Difference.

elliquance™ technology incorporates the patented Surgi-Max® Radiowave energy source which utilizes high frequency, low temperature radiowaves to perform traditional scalpel, scissor, electro-surgical and laser assisted procedures. The cell-specific tissue effect affords unparalleled surgical precision while sparing healthy tissue. The low temperature emission results in non-adherent bipolar performance which minimizes tissue trauma and eliminates frequent cleaning and instrument irrigation.

**DTF-40**  
Working Length: 40cm

**DTF-38**  
Working Length: 38cm
